

Summary Rate Request Change for South Carolina Intrastate Household Goods Tariff

Armstrong Transfer & Storage CO. INC

Certificate Number 17-E

Armstrong Relocation is requesting to file an amendment to our current rate structure for intrastate household goods in the state of South Carolina. Armstrong has used the current Armstrong tariff 2016 rates schedule for the past four years. The cost of labor and materials has increased in the past four years to the point that Armstrong can no longer operate on the 2016 rate schedule. Along with this written request you will find a copy of the Class E Amendment Form and the new proposed rate schedule.

The new proposed rate schedule is based on the structure used by the Armstrong Tariff 2016. The new Armstrong rate tariff 2020 has a general rate increase, along with additional rates for packing by carton, unpacking by carton, and debris pick-up. The first 12 pages of the tariff include 20 rules that define the services offered. The last 4 pages of the new proposed Armstrong tariff 2020 include the rate matrix for all tariff charges. A short itemized summary of each rate matrix is listed below.
